

Product / Process / Program Offering

Manufacturing Process

- Sand Castings
- Die Castings
- Lost Wax Castings
- Precision Investment Castings
- Permanent Mold Castings
- Lost Foam Castings
- Sintered Powdered Metal
- Shell Mold Castings
- Continuous Castings
- Centrifugal Castings
- Forgings
- Metal Injection Molding (MIM)
- Rubber Molding
- Insert molding
- Over-molding
- All Stamping Processes
- Fine Blanking
- Plastic Injection Molding
- Injection Mold
- Custom Designing
- All Machining Processes
- CNC / Screw Machine
- Deep Drawing
- Spinning Fabrication
- Springs / Wire Forms

Product Materials

- Iron Ductile & Gray
- Brass
- Bronze
- Copper
- Aluminum
- Steel
- Aluminum/Zinc
- Magnesium
- Carbon steel
- Stainless steel
- High Alloy Materials
- Aluminum
- All Rubber
- All Plastic

Service Program

- Wide range of customer specific products and services.
- Full design and Engineering services
- Products manufactured Worldwide by Highly Qualified Suppliers
- Fast turnaround on quotations
- State-of-the-art Manufacturing
- Extreme low pricing on tooling
- Full Material and Dimensional inspection Report available with each shipment at no extra charge. (if required)
- 100% recorded dimensional inspections on preproduction approval samples
- No surcharging on alloys

General Product

- All Custom Components
- Valve Bodies
- Precision Orifices
- Pintle Fabrication
- General Fittings
- All Flanges
- All standard valves
- Specialty Valves
- General Assemblies
- General Fabrications
- S.S. fittings welded
- S.S. formed tubes
- C.S. fittings welded
- C.S. formed tubes
- Stamped Assemblies
- Formed Assemblies
- Custom tube bending
- Special Marking
- Special Packaging
- All Plating methods and materials
- All Polishing electro and manual
- All Painting methods and materials
- Secondary Machining
- Gears & Gear Assemblies
