A World of Choice, Convenience and Reliability

At Welsch Metal Products, Inc., we specialize in quality engineered metal, plastic and rubber components and assemblies that meet customer specification. We are a recognized resource for product customization, from concept to finished item.

Every business day, there is a reason to rely on our expertise and depth of service. Our experienced professionals will answer your technical questions. They will work with you on process choice, design, material selection and specification, delivery, and will provide quotes promptly.

The manufacturers that we represent maintain worldwide quality certifications. All set the standard and pace, when it comes to workmanship, quick response and delivery, and competitive pricing.

You'll benefit from a wide variety of global manufacturing capabilities and a complete selection of materials, from aluminum to zinc. Regardless of the product size, whether inches to feet, or product weight, from ounces to tons, we are ready to respond.

At Welsch Metal Products, satisfying our customer needs is of the utmost importance. Whatever your product specification, metal, plastic or rubber, you're assured reliable service—and the highest quality and value in engineered component and assembly solutions.

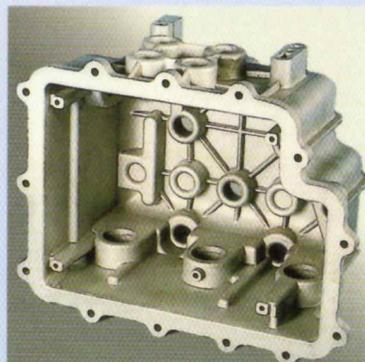

METAL

Brass

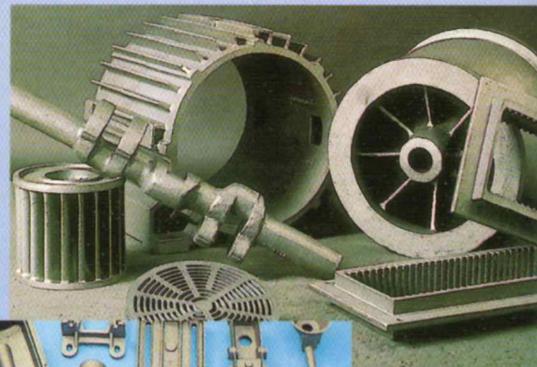

Aluminum & Zinc

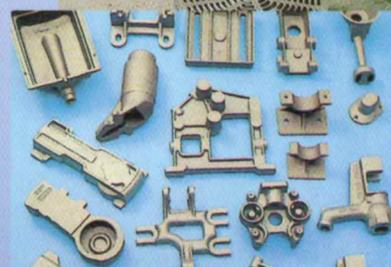

P
